Timely Tools & Advocacy Resources

UTILIZE UPDATED SALARY & BENEFITS DATA TO INFORM DECISIONS FOR YOUR DISTRICT

IASB has released updated reports for FY 2023 [salary and benefits data](#) and [staffing level data](#) as reported in the 2022–23 Fall Basic Educational Data Collection (BEDS). The compensation data is available for 31 different positions and the five distinct staffing level data reports show the number of students based on served enrollment by school district, by FTE and position type.

If you have questions, please contact Marte Brightman at mbrightman@ia-sb.org.

USE IASB'S SUPPLEMENTAL STATE AID TOOLKIT TO CALCULATE YOUR DISTRICT'S FUNDING

We believe supplemental state aid (SSA) is a critical component in student success by providing districts with adequate general fund resources. Check out IASB's [SSA Toolkit](#) to explore various SSA tools and resources available to members, including our SSA and new money calculator tool.

In addition to the SSA and new money calculator tool, the SSA Toolkit contains a [transportation aid allocation tool](#) that provides allocation amounts estimates by school district.

When you leave, you will understand how exceptional governance, with a focus on student learning, makes a difference for student success. Visit [IASB's website](#) to learn more.
