

## Commercial and Industrial Rollback Property Tax Replacement Funding

During the 2013 Legislative Session, SF 295 (Property Tax Changes Act) made significant changes to lowa's property tax system. Included in these changes was a change in the rollback percentage for properties classified as commercial and industrial. Rather than being taxed at their full assessed value, the rollback provided that commercial and industrial properties would be taxed at 95.0% of their value in assessment year 2013 (impacting FY 2015) and then 90.0% in assessment year 2014 and beyond (impacting FY 2016 and future fiscal years). Additionally, to reimburse local governments, the Act provided for an annual standing appropriation from FY 2015 through FY 2017 to help cover the loss of property tax revenue due to the impact of the rollback. Although the appropriation was extended beyond FY 2017, it was capped at the FY 2017 level for 2018 and future fiscal years.

The following table and chart provide information on the total amount of funding that was allocated for the property tax replacement by taxing authority from FY 2015 through FY 2021. In general, school districts accounted for about 39% of the total allocation, cities about 35%, counties about 19%, and all other taxing authorities combining for just under 7.0%. IASB has detailed information pertaining to allocation amounts for each school district.

| Commercial/Industrial Rollback Property Tax Replacement Allocations by Fiscal Year and Taxing Authority |               |                             |            |                    |            |                             |            |                    |            |
|---|---------------|-----------------------------|------------|--------------------|------------|-----------------------------|------------|--------------------|------------|
| Fiscal  | Total Amount  | School District Allocations |            | Cities Allocations |            | <b>Counties Allocations</b> |            | Others Allocations |            |
| Year  | Allocated     | Amount                      | % of Total | Amount             | % of Total | Amount                      | % of Total | Amount             | % of Total |
| FY 2015   | \$78,250,122  | \$30,842,066                | 39.4%      | \$27,619,401       | 35.3%      | \$14,722,850                | 18.8%      | \$5,065,804        | 6.5%       |
| FY 2016   | \$161,078,338 | \$62,935,506                | 39.1%      | \$56,864,670       | 35.3%      | \$30,591,597                | 19.0%      | \$10,686,565       | 6.6%       |
| FY 2017   | \$152,114,544 | \$59,664,146                | 39.2%      | \$53,494,620       | 35.2%      | \$28,826,544                | 19.0%      | \$10,129,234       | 6.7%       |
| FY 2018   | \$152,113,439 | \$59,287,511                | 39.0%      | \$53,597,463       | 35.2%      | \$29,192,640                | 19.2%      | \$10,035,825       | 6.6%       |
| FY 2019   | \$152,114,325 | \$59,512,560                | 39.1%      | \$53,660,402       | 35.3%      | \$28,673,182                | 18.8%      | \$10,268,181       | 6.8%       |
| FY 2020   | \$152,113,158 | \$59,774,651                | 39.3%      | \$52,967,539       | 34.8%      | \$29,075,384                | 19.1%      | \$10,295,584       | 6.8%       |
| FY 2021   | \$152,113,046 | \$59,668,308                | 39.2%      | \$52,515,400       | 34.5%      | \$29,571,543                | 19.4%      | \$10,357,795       | 6.8%       |

Although based on a variety of factors, in general, the percentage of commercial and industrial property a school district has within its boundary will have an impact on the amount of commercial and industrial backfill replacement payment a district receives each year. The following map provides information for FY 2021 on the percentage of commercial and industrial taxable valuation to the total net taxable valuation within the district.
