IMED is an Affiliated Program of the Iowa Association of School Boards.

IMED Iowa Medicaid Education Disbursement

Assisting school districts in
obtaining reimbursement for
Medicaid services provided to
students.

What is School-Based Medicaid Billing

School-Based Medicaid billing allows school districts and AEAs to seek reimbursement for services provided to Special Education students who receive Medicaid and eligible services. Eligible services include:

- Personal health services (such as hygiene and feeding)
- Nursing services (such as medication administration)
- Behavioral Health Services
- Counseling
- Specialized transportation services
- Physical, speech, occupational, and audiology therapies

What is Medicaid?

Medicaid is a joint federal/state program that assists eligible individuals based on income or disability status.

Each year, Iowa Medicaid provides benefits to over 700,000 Iowans; many of which are students with special needs.

Schools and AEAs can seek reimbursement through the School-Based Medicaid Billing program.

What IMED does for you

IMED was designed to assist in navigating the School-Based Medicaid Billing program, through our affiliated program with ClaimAid. Our goal is to help School Districts receive their maximum Medicaid reimbursement and allow schools to devote more resources to student learning.

ClaimAid provides the following services:

- Establish and maintain your Medicaid Provider Status.
- Identify provided services that can be billed.
- Internal audit support to ensure documentation is correct.
- Training and ongoing support to administration and staff.
- Submit claims to Medicaid on behalf of your school district.
- Resolve claim denials and other claim issues.
- Provide detailed billing reports monthly and annually.
