

# Minority Teachers: 2010-11 and 2020-21

Information on school staff is collected from every school district by the Department of Education through the Basic Educational Data Survey (BEDS). Included in the data collection are salaries, benefits, experience, positions, gender, and race/ethnicity.

The following maps provide the percentage of minority teachers for the 2010-11 and 2020-21 school years. Full-time teachers are identified as staff with full-time contracts and a position code between 726 and 745 (teaching position codes). In 2010-11 the average percentage of minority teachers was 2.24% and has increased to 2.87% in 2020-21. For additional information:
